Notes

This report covers the EntryThingy web application at app.entrythingy.com: public call pages, sign-in and signup, the artist application and payment flow, the artist Portfolio, gallery administration and jury review. The marketing site is out of scope. Payment pages hosted by PayPal, Square and Stripe are third-party content and out of scope. This report

uses the VPAT 2.4 Revised Section 508 Edition (WCAG 2.1) so it can be opened in the GSA OpenACR Editor.

Evaluation Methods

Automated testing with axe-core 4.14 (WCAG 2.2 A and AA rules) on signed-in artist, gallery and juror pages and public pages in Chromium. Reflow testing at 320 CSS pixels. Keyboard-only testing of tab order, skip link, focus visibility, navigation menus, tooltips and modal dialogs. Source code review of templates, scripts and generated documents. Screen reader testing was not performed.

Applicable Standards/Guidelines

This report covers the degree of conformance for the following accessibility standard/guidelines:

Terms

The terms used in the Conformance Level information are defined as follows:

- **Supports**: The functionality of the product has at least one method that meets the criterion without known defects or meets with equivalent facilitation.
- **Partially Supports**: Some functionality of the product does not meet the criterion.
- **Does Not Support**: The majority of product functionality does not meet the criterion.
- **Not Applicable**: The criterion is not relevant to the product.
- **Not Evaluated**: The product has not been evaluated against the criterion. This can be used only in WCAG 2.x Level AAA.

WCAG 2.1 Report

Table 1: Success Criteria, Level A

Conformance to the 30 criteria listed below is distributed within each category as follows:

Conformance Level	Web	Electronic Documents	Software	Authoring Tool
Supports	24	2	0	25
Partially Supports	2	1	0	1
Does Not Support	3	4	0	3
Not Applicable	1	23	30	1

Criteria	Conformance Level	Remarks and Explanations
1.1.1 Non-text Content	• **Web**: Supports • **Electronic Documents**: Does Not Support • **Software**: Not Applicable • **Authoring Tool**: Supports	• **Web**: Artwork images use the artist's piece title as alt text. Decorative icons are hidden from screen readers, and icon-only buttons have accessible names. • **Electronic Documents**: Generated PDFs (entry reports, application questions) are untagged. Images have no alternative text. • **Authoring Tool**: Galleries write call descriptions as plain text. The gallery email composer asks for an image description when an image is inserted, with an option to mark it decorative.
1.2.1 Audio-only and Video-only (Prerecorded)	• **Web**: Does Not Support • **Electronic Documents**: Not Applicable	• **Web**: Artists can upload audio and video pieces. The product gives no way to attach a transcript or text alternative. • **Authoring Tool**:

Revised Section 508 Report

Chapter 3: Functional Performance Criteria (FPC)

Conformance to the 9 criteria listed below is distributed within each category as follows:

Conformance Level	All
Supports	5
Partially Supports	4
Does Not Support	0
Not Applicable	0

Criteria	Conformance Level	Remarks and Explanations
302.1 Without Vision	• Partially Supports	• Screen reader users can complete artist, gallery and juror tasks. Artist-uploaded audio and video cannot carry text alternatives, and generated PDF reports are untagged.
302.2 With Limited Vision	• Supports	• The product supports browser zoom and reflow at 320 CSS pixels, and text meets contrast minimums.
302.3 Without Perception of Color	• Supports	• Information does not rely on color alone.

Criteria	Conformance Level	Remarks and Explanations
302.4 Without Hearing	• Partially Supports	• The product has no audio-only functions. Artist-uploaded audio and video cannot carry captions or transcripts.
302.5 With Limited Hearing	• Partially Supports	• Same as 302.4.
302.6 Without Speech	• Supports	• No function needs speech.
302.7 With Limited Manipulation	• Supports	• All functions work with a keyboard. Dragging has a button alternative.
302.8 With Limited Reach and Strength	• Supports	• No function needs physical reach or strength beyond standard keyboard and pointer use.
302.9 With Limited Language, Cognitive, and Learning Abilities	• Partially Supports	• The application flow uses plain language, step-by-step progress and saved drafts. Form error messages are not specific on all forms.

Chapter 4: Hardware

Notes:

EntryThingy is a web application. Hardware criteria are not applicable.

Chapter 5: Software

Notes:

EntryThingy is a web application evaluated under WCAG. Only the authoring tool criteria (504) apply, for the gallery email composer and generated reports.

Conformance to the 26 criteria listed below is distributed within each category as follows:
